Knowlton read a paper which contained much interesting information and was far-reaching in its research, telling of many triumphs of educational missions. She referred to conditions before the educational era in missions, the very difficult work done by the early missionaries for the cause of education as well as religion, and to the many schools now established by missionary workers. She made worthy mention of the missionaries who went out from our midst many years ago, Bishop and Mrs. E. W. Parker of this town. Following the paper Miss Sinclair told of an instance in which Mrs. Parker, at the age of 73 years, left her comfortable home in Moradabad, India, to take the place of a missionary who had been in charge of a school near by. This missionary had died, and Mrs. Parker is now at work there. Mrs. Atwood spoke of a message received by her mother from Mrs. Emily Harvey at Raipur, India, in which she told of the conversion of the man who had been teaching her the Hindoo lan-guage, so each had helped the other. A few interesting items were presented by some of the ladies as current events in missionary work.
